

DEPARTMENT LETTERHEAD

October 18, 2016

TO: OES Region 1, Area "C"
CICCS Peer Review Committee

Navigating with a compass and map is an essential skill for many incident positions. Even with new technology such as Global Positioning System(GPS) receivers, map and compass skills are still needed.

This document is to serve as verification that **XXXXXXXX XXXXXXXX** has met or has exceeded the training provided by the National Incident Management System's Basic Land Navigation course (NFES 002865 PMS 475).

This member has successfully been trained in; how to read topographic maps; understanding geographic location systems such as latitude/longitude and Universal Transverse Mercator (UTM); use of a compass and clinometers; an overview of the Global Positioning System (which includes the use of a GPS device).

Sincerely,

XXXXX XXXXXXXXXX
Fire Chief
